

# WiCS-2100

Our new Wireless Interactive Collaboration System is designed for corporate and classroom applications. **WiCS-2100** offers full integration with Chromecast and AirPlay, dynamic screen layout, eco standby mode and on screen user preview of connected device content for better moderator control.

## Top features

← SEE ALL FEATURES ON REVERSE

### Dynamic Screen Layout

When multiple users present, content layout configures automatically to optimize display.

### On Screen User Preview

Displays thumbnails of all connected devices for immediate preview.

### Eco Standby Mode

Utilize discreet power to maintain functionality while conserving energy use.

### Chromecast Support

Share audio/video content using Google's native Chromecast protocol.

### AirPlay Support

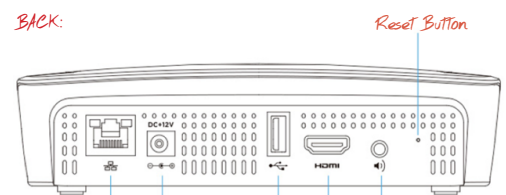

Share audio/video content from an iOS device, using Apple's native AirPlay protocol.
